

Pandemic Emergency Management – Challenge & Tested Solution

Challenge identified:

Navigating the OHTs

Solution:

OHT name and contact list

- Reena populated a chart that aligns active DS agencies to OHTs
- Where possible, key contacts at the OHT are included (often difficult given number of organizations and transitions)
- Also included, is the OHT website and contact info for the OHT. Where available, an e-mail or link to the contact us web page

Steps to Implement:

1. Compiled list of OHTs and the Agencies that fall under them

Results

- How effective was this?
 - Somewhat. The OHTs are not usually quick to respond
- Was this efficient? Was it quick to implement?
 - It took time
- Would you recommend this to other agencies?
 - The list may help be of use to some Agencies who do not know who to contact

Additional Considerations:

OHTs are very busy and don't always make time for Agencies

Lessons learned:

N/A

Further contact Person:

- Bryan Keshen (President and CEO, Reena): bkeshen@reena.org
- Mario Longo (Director Health Services, Reena): MLongo@reena.org

Date: January 12

Person(s) Consulted: Bryan Keshen, President and CEO, Reena
Mario Longo, Director Health Services, Reena
