

Eye Protection

Eye protection is worn at all times when in a group home as part of *Source Control*.

Sunbeam stocks a wide variety of eye protection styles.

Find what works best for you and ask your supervisor about options if you are having problems with fogging or fit.

Face Shield Options

- Full length
- Half length
- Foam strap
- Vented strap

Safety Goggles

Safety Glasses

Cleaning & Disinfecting

How Often

| Non-outbreak | Outbreak |
|---|--------------------------------------|
| Minimum twice per shift (meal break + end of shift) | Between contact with each individual |
| Additional moments: if eye wear is splashed/sprayed | |

How To

Step 1: Put on gloves

Step 2: Clean and allow to air dry

- Murphy's Law alcohol spray reduces streaking and evaporates quickly, or
- Dish detergent and water, or
- Using disinfection wipes (or cloth with disinfectant spray)

Step 3: Remove gloves and perform hand hygiene
