Cleaning & Disinfecting for COVID-19

One of the ways we can help protect everyone while we are at work is through enhanced cleaning and disinfection practices.

Cleaning
Uses soap and water to remove dirt, debris and other materials from a surface.

Disinfecting
Uses a chemical to kill germs.

Let's Keep it Clean

Put on gloves

Wash visible dirt with soap and water

Spray with disinfectant

Make sure the surface stays wet for the full contact time according to product label

Remove gloves and wash hands
